

TACKETT

Chiropractic Center

DEAR PATIENT. AS DEEMED AN ESSENTIAL SERVICE WE ARE OPEN FOR PATIENTS IN NEED OF OUR CARE. WE HAVE MODIFIED OUR SCHEDULING TO ASSURE THAT AT NO TIME IS MORE THAN ONE PERSON (FAMILY) IN THE WAITING ROOM AT ANY GIVEN TIME. THIS ALLOWS TIME FOR THE DR / STAFF TO CLEAN THE ROOMS BETWEEN PATIENTS AND WASH HANDS THOROUGHLY. As a leading healthcare authority in our community, we wanted to reach out to all our patients regarding the COVID-19 virus, and to let you know the steps we are taking to alleviate any potential concerns. According to the latest reports from the CDC and other national healthcare providers, the current health risks are minimal for most age groups. Still, it is extremely important and we recommend that all our patients wash their hands frequently, do not touch your face, avoid close contact with people who are sick, and stay home other than for pertinent reasons. At Tackett chiropractic we follow strict cleaning policies for the protection of both our staff and our patients. Each staff member maintains rigorous personal hygiene standards as well preparing for every patient interaction. We use hospital-grade disinfectants across the entire office, with extensive room cleaning after each patient to ensure a safe and clean environment. Please rest assured that we are following local and national updates daily and will continue to maintain the highest level of safety and patient care that you have come to expect. If you have any questions regarding appointments, please don't hesitate to reach out to us. Please advise us, prior to coming in, if you have traveled internationally in the last 14 days or have been in close contact with another person who has been diagnosed with or expected for COVID-19, and whether you have a cough, fever or shortness of breath. Thank you for your attention in this matter.

Best wishes,

Dr. Tackett
